Not your Average Arranged Marriage

Prologue

Okay I'm not going to lie to you. This isnt your normal arranged marriage.Oh yea that's right you heard me Arranged Marriage! My parents had me until I was 18 years old. Right when I got off of high school they tell me I'm getting married. Oh yea that's what every 18 year old girl wants to hear.(sarcasm) Now I kno what your gonna do. Your gonna read this to see if your right and this is what you think is right ;She meets a guy that's drop dead gorgeous and

rich, then she starts having feels for him,has troubles with him, then she lives happily ever after. WRONG. This is my story for ya:

1.

Today is the day! Finally! But I also dread for it. This is my graduation day. The day I'll be leaving my friends going off to college and meet new people. I'm smart I pay attention and I'm popular. I'm not like

those mean girls in movies and books. I'm jst very nice. I stick up for people I get good grades I never stayed out late. I also never had a boyfriend. I never been kissed either. I kno what your thinking a 18

year old girl has never been kissed! It's not my parents fault I just never found anyone I really liked more than a friend. I hang out with guys and girls I'm more of a tomboy but I can switch over to being a

girly girl. I love to act and sing in the plays and concerts at my school. I got up and brushed my long black hair with brown highlights with my mother's sliver brush. My mom died when I was four years old. I was

too young to kno what had happened to her. When I asked my dad where was mama today he looked away then said"I'll tell you when your older sweetheart."and went back to what he was doing. When I

was 7 he finally told me.I cried and cried until I could not cry anymore. I do not want anyone to treat me differently just because my mother was dead. So I kept it a secret until one day at school when we had to

do a family tree when someone in your family lived and when they died. I started to cry during my presentation and told everyone I did not wanted to be treated differently. No one did. They kno what

would happen if they did. The teachers acted like nothing had happened. But I had this one teacher that made fun of me and kinda harassed me so I got him fired. No one messes with Annabel Harpmen

and gets away with it. I got up and threw on a pair of worn out jeans and a plain black shirt. I grabbed my bag and headed down the stairs."Mornin' dad. Mornin' Chloe. Mornin' Claire."Chloe and Clarie are

twins and were two when Mom died. "Come on hurry or else I wont drive you."I said. They both got up and picked up their bags and put on their tennis shoes."Ready!"They said at the same time. The both

wore the same clothes with is a jean skirt with a white frilly tank top with a thin jacket. Chole is wear a faded pink jacket and Claire is wearing a faded blue one. Surprisingly they dont fight with each

other. We got in my car thats a green 2008 Aston Martin DBS I LOVE this car!! I drove them to our school at Wheeler High School in Marietta, Georgia. We pulled up at our usual spot and got out. I said

bye to the twins and left to the usual table my friends are at."Hey guys and girls! Whats up???"I said cheerfully.

"Oh not much."said Kayla in a distracted tone then switched over to a

cheerful tone and said"Just the fact we're graduating today!!!"she smiled brightly then turn around and kissed her boyfriend. I smiled happily. I'm happy for Kayla and Jack, they've been going out for 2

months now. Even though she wont say it, it kills Ashley that they're dating. I looked at Ashley's face I could tell she was sad. Only a little change happened to her. I've known Ashley since kindergarten she

was one of my best friends.Ashley has red hair and green eyes. Kayla has blond hair and blue eyes.I walked over to sit next to Carol, a

brown haired girl with violet eyes. Her original eye color is blue but her

dad works at a glasses and contacts place so she got a red-ish contact for her eyes to be violet. I dont wear contacts and no one can make me. I never really thought of myself as pretty or cute. I dont pay

attention to those stuff.I wear glasses it has a black frame with a jewel on the side.

"I know right!! This is going to be awesome!!!"I said excitedly.We got

to class and the rest of the day we were practicing for the event. Finally we got off of school and went wild! Students screamed that made you lose your hearing for a while. The halls we crazy as the

classroom. I opened my locker and took my purse I left in. I closed it and walked off to the crowd. I sighed yearbooks got in pictures and then went to my car. Chloe and Claire was already there waiting for

me. I climbed in and we drove to our house.When I got home I took a shower then went to my closet to find something to wear under my graduation gown. I found a silk blouse my dad gave me that was my

mom's. I figured it would work. Something of my mom's when I graduate. I brushed my hair and 30 minutes later it dried. My hair doesnt frizz or puff when it gets wet or after I wash my hair. I like it.

And it's really straight. People always ask me if I straighten my hair or not, which I dont. I also dont wear make up. It's bad for your skin.I checked the clock and it was 4:30 p.m. I sighed then went to find a

nice pair of jeans.I tried doing something to my hair but I ended up just having it laying on my shoulders.It was 30 minutes till I graduate. No matter what I do I just cant sit still.Finally It was time and we drove

to my last time as a student to Wheeler High School. When we got there I could see a long line behind us. It was a good thing we went early. I went to take my seat in the H section and saw my friend Alex

sitting there waving her hands at me.I walked over and sat next to her and she was already talking when I wasnt even in earshot conversation."Can you believe we've known each other since

preschool and now we're graduating high school!"she started to cry and stained her gown with tears.I tried to comfort her but she kept crying.Soon everyone was seated and the principal got up on stage

and started to give a speech. Then students gave speeches too then the principal started giving out diplomas.I heard my name being called and I stood up. Everything seemed to be moving fast and slow. Finally

it was over and we decided to go to McDondals.Almost everyone was there celebrating our freedom.I talked to alot of people and my mouth kept getting dry from talking so much.When It was 11:30 p.m. we had

to leave. I said bye to everyone and told them to txt me sometimes. When we got home I took another shower because I smelled like fries and burger.When I got out my dad said"Annabel can you come here

for a moment?"I was curious to what my dad would say."What dad?"He paused for a moment."Is it that bad?"I asked.

"Yes.Before your mother died we had an agreement."He said.

"Okay. Which is what?"I said. I have a weird feeling about this.

"Go to sleep you will understand tomorrow."He said then sighed.He looked at me his eyes were sad.I thought it was because of us talking

about mom.

I sighed then climbed into bed.It was 1 in the morning and I drifted into a deep sleep.

Chapter 2

Not Your Average Arrange Marriage Part 2

2.

I awoke at 8:30 by my dad."Dad?Whats wrong?"I asked sitting up.

"Listen people are coming over so I need you to get ready.Chole and Claire are already up and wear something nice.I'll leave so you can get

ready."He said and smiled a sorry smile and comforting.I sighed and brushed my hair and went to my closet.Usually when dad says to 'wear something nice' he means a really good outfit.I decided to wear

my grey shirt with music notes on it with a vest and black pants. I went to brush my teeth and put on my emergency lipstick thats the same color as my lips but pinker.I used my brush to flip my hair and

use hairspray to keep it in place.When I got back to my room and put in earpluges and turned on my pink Ipod.I was listening to I Do Not Hook Up By:Kelly Clarkson when I heard the doorbell ring. "Annabel!

Come downstairs!"I heard my dad yell."Be right there."I called back to him.I sighed then lowered my Ipod but kept it on.I walked down the stairs and I heard Claire and Chole crying.I ran down as fast as I can

and walked over to them."Whats wrong?!"I asked panic in my voice. I didnt even kno I passed over three peoplethat were staring at me."Clarie, Chole,"I said is a stern voice that I only use in emergency

in this case it is."Whats wrong."Claire looked up at my then cried harder.

I turned around and saw three people in fancy clothes.Oh

great!*sarcasm*I thought one of the things I hate most is stuck up rich people.But they were the ones my dad said where gonna come so I said in my polite voice"Hello I'm sory that you had to see my sisters

cry like that but something happened really bad to make them cry like that I'm sorry."I turned around back to my crying sisters.I tried to comfort them but they just cried harder than ever. A few minutes later

dad came."Hey dad why are Claire and Chole crying??"

"Oh.Um you see Annabel last night I was trying to say-"

"YOU MEAN YOU HAVENT EVEN TOLD HER!"Claire screamed at dad.

"Tell me what?"I asked glaring at my father.

"YOU'RE GETTING MARRIED!!!"Claire screamed again and cried harder.

"I'm WHAT!"I screamed.I tried not to cry because I knew then that the

strangers standing at the doorway was the new family.

I stood up and said icily"Why are you telling me now?"I was glaring at him that made even the jocks back away from me.

"Well I-I d-d-didnt w-want y-you t-to g-get ou-out of i-it."studderd my

dad.

"LIKE TELLING ME NOW WILL MAKE IT ANY BETTER!"I screamed.He flinched away from me while I pushed past him and head for the stairs.

"I'm sorry you had to see that-"I heard my father say as I went up.I heard Claire and Chole coming up with me so I headed into my room and I told them to sit at my sides.They laid both of their heads on both

of my shoulders."It's okay.It's okay."I chantted to them and to myself.Finally they cried their selves to

sleep.It's a good thing I'm strong. I placed both of them on my bed and kissed their foreheads I

wrote them a note and this is what it said:

Dear Claire and Chole,

I love you guys soooo much and I'm going to miss you both soooo much. You both have my cell so txt and call me. I left a few things for both of you.I'm leaving Mother's brush with you two so please take care of it like it is your life.Mom died giving birth to you two so please take care of it and yourselves.

Love your big sister,

Annabel Harpmen

I took out mother's brush that I'd kept in a box under many things so nothing can happen to it.This brush I hold in my hand was my great great great grandmother's brush that she past down now Im giving it

to them. I kept the brush my mother gave me.She had two one of her's and my great great great grandmother's. I sighed then walked carefully

downstairs. I faced them and crossed my arms.They just

stared at me and my dad said"Wheres Claire and Chole?"

"Upstairs asleep."I said coldly.

He sighed then said"Annabel you have to understand-"

"Understand what?!"I interrupted.

"Understand that I love you and that this will work.Now go upstairs and pack."I didnt hear what he said only the part where he said to

pack.I was already thinking of ways to delay it.But then I thought of my family and how we need the money.But I thought of an excuse to delay for a while.

"I cant dad Claire and Chole are sleeping.We were in my room when they fell asleep."

"Well go pick them up and bring them to your room."He said plain and

simply.I just stared at him for a long time.

~~*~*~*Jake's POV(point of view)*~*~*~*~*

"Well go pick them up and bring them to your room."He said plain and simply.I just watched her stare at her father for a long time.I dont even think she seen me once.She was so nice earlier! And CAN she

pick her sisters up?I'm not being rude but they must weigh at least 100 pounds because thats the normal weight for their age"mais papa, je ne veux pas aller avec eux!"(But dad! I dont

with them!)she said.Wait.What?She can speak in..is that french?" Nous avons organisé ce mariage avant que votre mère est morte, et vous irez jusqu'au bout quoi qu'il !"(We arranged this arranged!

marriage before your mother died and you are going to go through with it!)said her father.She glared at him that mademe want to run.He glared back."J'irai le tas mais s'ils réveillent se sont préparés à plus de

pleurer. "(I'll go pack but if they wake up be prepared for more crying.)she said.God! I wish they would just

talk english!The next thing I knew she went to the closet door and got 2 large

suitcases.Was she really going to go through with this?"Im sorry you had to see that again,"said her father"When shes mad she'll talk french."oooh so I was right.She was talking french.Wow I'm marrying

a woman that talks french!"Jake,"said my mother,"Will you go and help Annabel pack.""Yes mother."I said and walked up the stairs.I saw her door open a little and saw the twins sleeping.Wow she wasnt lying.I

knocked on the door and heard her say "Go away before you wake them."I sighed and walked in."le papa de regard part j'ai mis le besoin vous pour réveiller them.It mieux s'ils ont mis me voient que part

autrement la prochaine chose vous kno ils commingont à vous avec les couteaux"(look dad go away I dont want you to wake them.It's best if they dont see me leave or else the next thing you kno they'll be

comming at you with knives.)She said.What the hell is she saying!I heard papa in that sentence so I said"i'm not your dad."she turned around and glared at me."Either way get out."she said ice in her

voice."Look my mom said to come up here and help, not fight."I said."Fight?Well I'm sure I can beat you up anytime and anywhere"she said.I'm sure she could."Look,"she said gently,"I kno you're gonna file

a divorce after the wedding so why bother.""You think I'm going to divorce you?"I asked.

"Did you not hear me?"she said retarically.I opened my mouth to say

something but she just said"Dont."that was enough to shut me up."Look just go to my closet and take my shirts off the hangers and fold it neatly and place it in that,"she pointed to a suitcase,"Then keep

doing that."I was walking up when I noticed a note on her desk.I

picked it up and I only read:

Dear Claire and Chole,

I'm leaving Mother's brush with you two so please take care of it like it is your life.Mom died giving birth to you two so please take care of it and yourselves.

When a hand snatched the note and another pinned me down."What the hell! Cant you respect people's privacy!"she said with icy in her voice once again."How far did you read?"She asked putting more

pressure on my arm.Damn shes strong!"Well!"She said still putting pressure on my arm.Thats when I slip,"I only ready the part that you were leaving your mother's brush with them!Now let go!"she loosened

the ressure but not much.

"Not a chance."Then she let go of me and placed her foot on my back."You better learn to mind your own business or else."Then she

was off of me.She contiuned to pack as if nothing happened.I got her shirts in the luggage when we left.I went out the door first the I heard her

whisper"Good-bye Claire Good-bye Chole"I could hear her kissing

them both on their forehead and leave.We went down the stairs and my parents already left.They let us ride in the limmo by ourselves.

Chapter 3

Not your Average Arranged Marriage Part 3

3.

~~*~*~*Annabel'sPOV*~*~*~*~*~

A Limmo.Really? Ugh! Now I hate this more! This is a snoby rich kid that gets everything he wants.I hate how stories like this happens.And I really hate how rich people always get want they

want,being snoby is an act(or so they say),they're misunderstood.Havent people notice thats just how stories are?Never a REAL snoby person thats rich and they're parents really care for

them.This one guy brought my suitcases into the back and opened the door for us.Justin got in first and I sat across from him.We sat like this for a long time.Until I noticed my eyes were watering up

again.Great!*note the sarcasm*I was reaching in the bag to find my eye drops before he notices."Are you crying?"said Justin."No! Why would I be crying?Do you hear my voice breaking?"I said."No,"said

Justin.I continued to find my eye drops but when I did they stopped.So I put them back frustrated.

~~*~*~*~5 Minutes Later*~*~*~*~*~

God! Why wont I stop tear up?!Now I really need to find my eye drops.I found them and got a tisuse from way down under my bag. I dried my tears then leaned back in the seat and to drop the

liquid.Suddenly a hand stopped me.I missed and got my cheek."What are you doing!"we said at the same time.I glared at him to say it first."I didnt kno what you were doing."He said."Well I was putting on

eye drops have you ever heard of it?"I asked retarically."Now let go or I will make you."I

continued.He let go of my arm and went to sit back where he was.He watched me.I mentally rolled my eyes but continued

to do it anyways.When I was done I closed my eyes for 5 mintues and enjoyed the ride.Later I brought out a book my friends told me to read.They littery forced me to read it.They handed me this

book'Maximum Ride'(really good you should read it!)and told me to read it and watched me until our teacher told them to sit down.I was in the middle of the first book and it is pretty good.I was reading to a

goood part When Max kisses Fang!!!(btw if u were gonna read it srry! but u dont kno if they really do I could be talking about some random stuff!lol)But Justin cleared his throat saying we need to get out.I said

okay hold on and continued.I was done with that part and we got off we were at...I was searching for a sigh telling me where we were.Ah! I saw it! We were in...Kentucky! What! So far!I asked him I just had

to ask"Where do you live?""Live in Forks, Washington."Wow!"Thats the rainiest place in the U.S.""Yes"This isnt going to work out for me.I lived in a nice warm climate now I'm going to live in a cold one!At least

I dont have to go to school anymore."How old are you?""18 but I havent graduated yet so I have to go to school.""Oh"We stood in front of this really fancy french resturant. That reminded me"Do you

speak french?""No I dont.""Then why are we at a french resturant?""Because I like fench foods and plus you do speak french so you should be able to order something."I sighed.Wow hes already

using me after...2 or 3 hours.We walked in and I was grabbed into a room."Miss you need to change and wear this."said the driver of the limmo showing my a red dress."Why?""Because you need to wear a

dress to be dined.""Fine! But you must leave.Now."I said.He turned and walked out.I locked the door and mad sure no one was here.I took my clothes off and placed it in a plastic bag that was left for me

and wore this flashy red dress.God I hate wearing dresses.I feel so uncomfortable.I walked out and there was Justin sitting at a table looking at the menu.I walked over and nearly tripped on the heels I

was supposed to wear.I dont know how rich people dealed with it! How can they walk right wearing these! I made my way and sat down.Justin looked up and smiled."You look lovely""Er..Thanks."I

looked at the menu which was in french and the prices were so high! I dont kno how someone like me could afford it! There was a lot of sea food on the menu too.I ended up ordering a lobster and he ordered

oysters.Ew! Not to be a girl but those things taste horrible! They're like snot! When the waiter came to take our order he was HOT!!! I mean REALLY HOT!! He was looking at me mostly even when taking

Justin's order he continued to stare at me.Then he left us to give our orders to the cook.In the corner of my eye I could see him slipping a piece of paper onto the plate of my lobsters.I laughed softly but Justin

heard it."Whats so funny?""Nothing.Now drop it before I pin you down in front of everyone here.I think no I kno people kno you so I think it would be embarrassing wouldnt it?"I asked. "Dont you think you'll be

more embarrassed?"asked Justin."I dont think so.You see I dont kno anyone here but you.And I dont really care what they think.Unlike you."I pointed out.Just then our orders came and I saw the note he

gave me.I looked up and smiled pretending not to notice it."Thank you."I took the piece of paper in my hand before he'd seen it and he had a questioned look on his face, as if wondering if it had dropped.He

turned and left looking on the ground making sure.I laughed and Justin asked,"Now what are you laughing at?"he sounded very irritated.Good.I handed him the note and laughed again."They have

really nice service here!"I said then laughed again.Justin didnt laugh though he seemed...I dont kno mad?Why would he be mad?I pushed that thought away and started on my lunch.By the time we left I was

stuffed full! I havent had that much too eat since...well ever.We hopped into the limmo and were on our way again.I tried finding my Ipod to listen to some music but when I turned it on it was low on

battery.Great!*sarcasm*So I just sat back and rubbed my forehead with my hands.I had a major headache.Just then I heard a sound.It was my phone a pink palmcentro.Someone had texted me.

Hey Annabel! Whats up?~Kayla.

Instead of texting her back I called her."Hey Kayla! Nothing much just got something to tell you."I said picking at my nails as if it wasnt nothing big.But when you talk/call Kayla and says you have to tell her

something she'll kno its big.

"Well! Spill girl!"said Kayla.

"I'm getting married!"I said with fake enthusiasm.

"WHAT! HOW! I'M YOUR FREAKIN BEST FRIEND AND YOUR NOW

TELLING ME THIS!"yelled Kayla.

"WHOA!Kay! I would have told you but It's an arranged marriage and

I didnt even kno till..."I covered the mouth piece and to ask,"Hey

Justin?What time is it?"

"JUSTIN?! THATS HIS NAME!"I could hear Kayla's voice.

Justin smiled and said"It's 4:30."

"Oh my God!! What a voice!! Your luckyyy!!!"said Kayla.

"Hey I didnt want to be married yet! "I said.

"Aww come on! You havent even dated any guys yet! And plus your a

total bookworm! No offence but havent you read tons and tons of

love and arrange marriage stories?"said Kayla, and she was right.I just

didnt kno how it happened to me!

"Yes but-"I started.

"But nothin'!You kno how they end always TOGETHER! Now just start hanging out! I gotta tell the others! Bye!"said Kayla.

"What?! No you cant tell! Kayla dont!"It was too late now she already

hung up.I looked at Justin and said,"Be prepared my phone is going to ring in 3, 2, 1"right after I said it my phone ang I said,"Told you."and answered it.I had sooo many calls it kept me busy.I had alot of friends

so when we had to stay at a hotel I said bye to my friend Seth and turned off my phone."Thank God the calls have ended! Sorry you had to go through with that.By the way is there any water?My throat is so

dry!"I walked up at the mini frige and got a bottle water.I drank half until I stopped."Hey it's okay I kno how much girls like to talk and I have neighbors who talk almost 24/7 and.."Justin trailed off looking at

me.I had a death glare at him and I put my water down and ran towards him full speed.I had him pinned on the floor face down on the

carpet.I held his arm and put pressure on it."DONT YOU DARE COMPARE ME TO OTHER GIRLS!"I yelled at him making his arm hurt

more."WILL YOU STOP HURTING ME!"he screeched."Sure."I let go and got off of him.I walked over to my water and drank.I finished two before I was calmed down."where did you learn how to defend

yourself?"asked Justin. "I took karate when I was four then continued till I was a blackbelt. Even though I was a black belt I kept training and everyday I ran for about 3 miles? 4? I throw punches and boxing bags

and keep in shape."I said."Why?""Why cant a girl just kick a guy's butt whitout questions?"I said.

"Now I'm going to take a shower, Can you tell me where my clothes

are?"I asked."Right here,"he said."Thanks"I said grabbing a pair of sweats and a t-shirt.I walked to the bathroom and locked the

doors.When I turned around the bath was HUGE! There was a long oval bathtub and a shower. I wanted to take a bath let my body unwind.I turned the water on warm but a little hot. I brushed my teeth

and used mouthwash then got in the bath.It felt like I was in heaven! I found a pluge for my Ipod and I also took my speaker for it for me to relax.I started to sing-a-long to the music and completely forgot about

what had happened today.When I stopped to take a break for my voice I heard a set of hands clapping.Thats when I remembered everything that happened."You were listening!"I said."Well you do

sing loud."said Justin and he laughed.I was going to let that one slide all I wanted was to relax.I didnt care anymore.I just relax and I almost fell asleep in the tub.I got out and dried myself and flushed the

water.I dressed quickly and took my Ipod and left it to charge over night.Thats when I noticed there was only one bed.Oh great!*sarcasm*"Okay so are you going to sleep on the bed or the

couch?"I asked Justin."The bed of course."replied Justin."Okay I'll take the couch."I said then sighed.Looking sad trying to search for a blanket."No I'll take the couch and you can have the bed if you dont

want to sleep with me."said Justin."If you say so.But you're gonna need this."I said throwing hima pillow.Obviously he doesnt have much of a reflex 'cause it hit him in the face.I laughed and told him he

needed better reflexes.He laughed too and said good night.

Chapter 4

Not Your Average Arranged Marriage Part 4

I lifted the covers and climbed into the soft bed.I couldnt fall asleep right away.I was too busy thinking about Justin.He was so nice to me.Maybe he just didnt want to cause any troubles.I dont kno

anymore. When I looked at the digital clock it was 1:00 a.m.Somehow despite my thoughts I fell asleep.When I awoke I saw Justin on the floor besides the couch.I laughed softly then walked over to pick him

up.I placed him on the bed and let him sleep.I picked up my book and started to read.I was finished with

the book and put it back in my bag.Now I want to read the whole series! My friends got my hooked

on another series!My friends.Oh how I miss them! I turned on my phone to see what I missed.It turns out I have 225 new messages and 162 missed calls.Wow.Well I guess I shouldnt have been surprised.I

mean I did talk to Kayla.Once she knows EVERYONE knows.I sighed.I was scrolling on my phone looking for something other than me getting married. There was none.I desided it was time for Justin to wake up.I

walked over to the bed and shook him as gently as possible."Justin.Justin.Wake up!"I begun to shake him more fiercer.Nothing I did worked so I desided it was time for a wake up

call."Justin.Wake up!"I said in the sweetest voice."We have to get ready! But I dont think I can get out of bed before you kiss me again.Last night was amazing.It was the best night of my life! Wake

up!"I was smiling on the outside trying not to laugh.Justin woke up instantly after I said that."We

did what?!"he asked looking shocked."We did nothing."I said."See?"I said lifting the covers showing

my clothes I wore last night."Then why-"started Justin but I cut him off."It was about time you woke up."But I though I was on the couch?"asked Justin confused."Oh no.You were onthe floor when I

woke up! You think rich people gets to eat alot but your lighter than air!"I stated.He glared at me that didnt make me scared one bit."Okay are you trying to glare or...Okay yea what are you trying to do?""I'm

glaring at you."he replied not braking his glare."Well try harder,"I said and walked away finding something to wear."Umm..Wheres my suitcase?"I asked searching for it in the living/kitchen room."It's right

there."said Justin pointing to a suitcase that's probably a designer."No its not."I said."Yes it is. My sister well my friend thats like a sister bought clothes for you incase you have normal clothes."said Justin,

when he said normal he sounded as if it were trash."Well excuse me for being who I am."I

snapped.I looked through the clothes that were indeed designer clothing.Ugh! Even the jeans I picked were designer.I

picked a black shirt that had 'cute' writen on it.Not what I would usually wear but it'll do.I was looking in my bad for my glasses cleaner but I couldnt find it.I poured out everything in it but found

nothing"Hey Justin?! Did you take my glasses cleaner?"I asked."Well yes but you need to wear these."He said and handed me a contact case."What!? No way I am not wearing contacts! Even when someone

offered me 100$ I wouldnt do it!"I said,though I knew I was going to be forced into wearing them."Look you have to wear these and you also need to change.Thats too nor-"said Justin before I cut him

off."Listen I'm not going to wear contacts but I might change.What do you want me to wear?"I said impaiciently.He was searching though my suitcase when someone knocked on the door."Coming!"I said in a

sweet but normal voice.I opened the door and there stood a handsome guy.He had short brown hair and a really cute smile."Room servies!"He said continuing to stare at me."Oh! Um..I didnt order room

ser-"I started but was cut off by Justin."Finally! I was starved! Dont worry Annabel I ordered enough for the both of us!"The cute guy was looking at me still until Justin said to leave.He left after a minute and

Justin shut the door,"What was that about?"asked Justin while we were eating a caviar omelette.It was soooo good! I've never had caviar before and now I looooooove it!When we were done Justin

showed me what he had wanted me to wear.It was a cream colored tank-top that had lacey frills at the top and bottom parts and a mini baby blue skirt.I wore the tank-top but refused to wear the skirt.It

was waaaay too short and it looked tight. So I ended up wearing the cream colored tank-top with jeans."Okay I have some news to tell you,"said Justin,"Well what is it?"I asked"Some annoying people have

to come with us.They were on vacation and landed here where we need to take a plane.-""So There coming with us?"I asked curious of how its going to be."Wait how much annoying people besides

yourself?"I said smirking."Three."wow so four annoying people with me."Same plane?" "Yes."Justin watched my face as if waiting for something.I sighed really big and said"Well lets get this over with!"I

said sarcasticly and rolling my eyes.He laughed and when my eyes were closed from laughing he kissed me.When I felt his lips touched mine my eyes snapped open and I tried to end it gently trying not to

hurt his feelings but he only put his hand on the side of my face not wanting me to stop.he was walking forwards and we ended up on the couch still kissing.I was now really enjoying it.This was my first kiss and

it was the best.We continued to kiss until someone or should I say snotty girls knocked on the door."Jake-yyy, open up! I kno your in there!"said a whiney voice.Jake?I thought his name was

Justin?Justin-Jake continued to kiss me his tounge trailed across my lower lip requesting access.That gave me time to stop and end the kiss."Go to the bathroom and pretend to do something".He nodded

and looked like he wanted to kiss me again.Well too bad!I walked over to the door and watched him go to the bathroom."Jakey! Finally you answe-"she started but when she saw me she switched to being the

bitch she is."Who the hell are you?"she said in yes a bitchy voice."I can say the same thing about you.I'm Jake's fiance so if you fan girls dont mind go away we were in the middle of doing something."I said in

a mysterious voice.They all looked shocked and also disbelife.They just walked in and Jake walked in with wet hair and a towel trying to dry it faster with a plain white shirt but still look dressy like."Jakey!" and two

girls ran over to him and clung to him like they were about to fall off a roof.Wow,I thought, these girls must be despreate!Or maybe they cant find a guy.I was watching the look on Jake's face when they

clung onto him.The look was priceless!He met my gaze and had a look as if to say'I rather be in hell than hang with them.'I nodded in agreement.Jake mouthed "get them off of me!"I nodded and walked

over."Okay let go fan girls hes mine."I took each of their arms and pulled them off, they both landed on their butts! Their faces were also priceless."So are these are the annoying girls you were talking about 2

hours ago?"I lied smoothly,though some wasnt a lie.there was four girls in total two that were obsessed with Jake and the other two seemed really nice and quiet."Yes but it wasn't-"I cut him off by my

face."Hmmm...So how long's the flight?"I asked."Oh about..4 hours."said Jake unhappily.I sighed then said" Well come on! The sooner we go the sooner I can be a way from them! I don't think I can

stand being with them for 4 hours straight but I can make do."I kno I sounded mean and I can be really mean when I want to but I usually prefer not to.But these bitches need to messed with.I took my

suitcase and followed Jake to the limo.He slid in and I followed. I was so happy that the sisters were not going to sit with us.When we got in I started a conversation with him."Okay why did you lie to me and say

your name was Justin?"

Flashback

'Hi my name is Justin Harpmen so when we marry we will have the same last name."He smiled a kind smile but I didn't buy it."Annabel Harpmen"I said and he led me to the limo out of my home.

Back at the limo

"Look I'm really sorry I lied to you I only lied because I hate it when those girls call me Jakey.I hate that pet name.I don't mind when my family says it but it really annoys me when they say it.But Justin is my

middle name and I prefer it more than Jake I don't care what you call me and I don't mind you calling me Jakey."He said with a smile at the end. My heart gave a little thump, with surprised me.I didn't like this

snotty rich kid!I don't want my life like those books I love to read.Even though I love reading it, it wasn't supposed to happen to me! I smiled back play it cool like nothing happened."I'll call you...Jake or Justin

maybe Jakey whatever one slips out my mouth when I talk to you."He laughed and I soon joined him.He went over to my side of the limmo and slid closer to me.I looked into his eyes and he looked into mine.I

felt something weird nothing like what I've read in books that expresses the feelings .Something was wrong here. Really wrong.He bent down and our lips met for the second time today.It felt like I was

whole but wasn't at the same time.Words couldn't explain my emotions. We pulled away and gasped for air. We reached the airport shortly and got out.We held hands as someone carried our suitcases.

We went to a private place where I could see one jet that was pink.It was obviously the bitchy sisters jet.We climbed in and it didn't have seats like normal planes it looked like a lounge there were two couches

some tables beside the couches. We strapped in the seatbelts and took off.It started slow but built up speed. Soon we were airborn I had to pry the desperate fan girls off of Jake again! God! Why wont

they keep their snobby hands off of him! I yanked them across the room and yes landed on their butts again."Will you whores get off of my fiance for once?! I mean come on! I'm getting married to him and

your still flirting? You fan girls are sooo pathetic."I don't like acting this way not unless I'm really ticked off. I don't cuss much and it doesn't feel right to for me.But right now I have to act strong and tough-ish I

don't want them to take avange of me.I'm too nice unless if you really piss me off and right now they are."Well we knew him longer!How do you know that he doesn't like it?"said one of the bitchy twin sisters.

The other to are twins too but they're not quads.They seem to be out of it, as in not really caring what happens."Hey, whens the last time you got your eyes checked?"I asked."Like...2 weeks ago why?""Whats

your vison?"Whats it to you anyways?""Oh nothing at all I just didn't think you'll need glasses but I think you do."I said.I saw anger flash in her but she said" Yeah right I have perfect eye sight." "Oh

really?Because I can clearly see the disgusted look on Jake's face when you clung to him."Anger was still in her and I knew she was going to get me soon. But I didn't care she can do her worst.She just

hmphed and walked away.I bet trying to get me back.

~~*~*~*~Taylor(bitchy twin)*~*~*~*~*

I HATE THAT BITCH! Who that hell does she think she is! UGH!! I am going to ruin her if it's the last thing I do! Jakey is going to be mine no matter what.I am going to win his heart.But what if shes right? What if

Jakey doesn't like me that way?But I can blackmail him.I've known him for along long time.I bet if I tell her something bad about him she'll dump him.I smiled a evil smile.I kno the perfect plan.I just have to

make sure of something."Hey Jess.In have something to ask you."She looked at her sister that's not her twin."What is it Tay?"said Jess."Well I know you're a major bookworm-erm-someone that reads a lot so I

was wondering you know that story I liked so much on the internet?Well can you tell me how the really mean girl gets back at this one girl?Like what she did."I asked."Why?"asked Jess,"You're gonna

do it aren't you?You're gonna do what she did to that girl.The mean girl is you and the other girl is Annabel."Annabel?Thats her name?! I always wanted that name when I was little. There was someone in my

class named Annabel that I hated so much just because of her name.Oh God.I am jealous of HER! I was angrier than ever now!"No I am not!"I said in my best shocked voice."Yes you are! If you want to

kno so bad then go on the website and read it yourself!"said Jess. Then she went back on her laptop that she brought.Why oh Why are my little sisters bookworms and me and my twin sister are soo more

outgoing and don't care about that? Hmmm...What did she do again? I think it was spiking a drink then having sex with him.That could work.But I'm never going to get Jake to a club with her here.Shes just

a whore who probably had tons of boyfriends.Maybe dated the whole guys at her school.Thats when I got it.I'm going to get Jake drunk and make him get really mad at Annabel.She'll never know.Might as well do

it with him.My chances never get this good.I walked to sit next to my twin Hallie and smiled evily.

I walked over to the other twins that seemed very nice."Hi my name is Annabel."I smiled a kind smile.They both smiled back and said,"Hi my name is Jessica, Jess for short.'"Hi my name is Angela.You don't seem

like the girl we just saw."I laughed and said,"Come here."I lead them to the private room and told them to sit."Okay all that was an act.I'm really nice and I don't get like that unless I get really mad.Sorry you

had to see that.""Hey it no problem we cant stand our sisters either."said Jess with a smile.I laughed."Why are you two so nice but your sisters arent?"I asked."Because we don't care about looks and

boys.Okay boys but not about looks."said Angela."Same.So have any of you had 1?""Nope"They said at the same time.I smiled."Have you?"asked Jess."No besides Jake."They seemed very

shocked."Really?"asked Angela."Yea I didn't date and I just graduated High school."They still looked shocked but spoke evenly."Wow, you seemed like a girl that had a few guys already."said

Angela."Really?Wow.I never really thought of myself as that."I said."So what to do to kill 3 and a half hours?"Jess looked at Angela and Angela looked at Jess and said,"You thinking what I'm

thinkin?""What are you two thinking about?"I asked."We were thinking about getting back at our sisters."said Jess with an evil smile."Okay what are you going to do?"I asked with a evil smile on my face.Angela

whispered,"We were thinking about drugging her to get her to sleep.Then put a baldcap on her and then she'll look like shes bald.Our sister is too dumb to tell the difference.And that will make her really

mad and shocked. ""That's not a bad idea."I said."But we should put a wig on her head so it looks like she has hair.Then we try to make it messy so she'll comb it an it'll fall off."I don't really think it's a good

prank and I'm not used to pulling pranks on people.I'm new at this but if they say it's a good one I'll do it.We found a baldcap and a purple wig from they backup closet they had.They went to get these tubes

with chemicals in it that I did not want to kno.But they seemed really smart and knew what they were doing.When they were done we slipped the 'potion' into Taylor's drink.We watched as she drank it

halfway and quickly fall asleep.Hallie was asleep also but not with the drink.Jake was in the bathroom so he didn't kno.Yet.We grabbed her hair and made it fit in the cap.We made sure it seemed real and placed

the wig on.She looked hilarious!!! I had to take a picture of her on my phone.This could be blackmail for later in my life.I felt a pang of guilit inside of me.We then ran across the room and threw a pillow at her

face and she woke up."WHAT THE FUCK!!!"screamed Taylor.Then Hallie came into the room and when she say Taylor's face and hair she cracked up and took her phone and started to take pic of her

sister.The look on her face was priceless!No one on the plane couldnt stop laughing.Taylor went to full panic mode.She was trying to pull the hair off her head but that made her head hurt.We put on temperary

glue on her head.Once she wash her new hair it'll come off.She knew instantly it was me and didnt bother asked who did it.She stormed over to me and blew up like a bomb."You little bitch!How dare you ruin

my beautiful hair!You will pay for this!I am going to ruin you so bad you will wish that you die."said Taylor in my face."Listen, I didnt ruin your hair.It

was already ruined.And bring it on.Bitch."I said and turned

away.I wasnt really scared of her but it'll be interesting to see what she does.I sat down on the couchansering my phone.

"Kayla!"I said,"Calm down!"

"HOW THE FUCK AM I SUPPOSED TO FUCKING CALM

DOWN!!!!!!!!"she screamed and my phone was stretched out as far as

my arm would go and I could still hear her as if she were here."HE

FUCKING CHEATED ON ME!!!! WITH MY BEST FREAKIN FRIEND!!!!" I

frowned, I never thought Ashley was going to take Kayla's boyfriend,

she was too nice."KAYLA!" I screamed,"ASHLEY HAD NOTHING TO DO

WITH IT1SHE IS TO NICE!JACK CHEATED ON YOU ANDASHLEY WAS

PROBABLY ENJOYING IT!SHE HATED THE FACT THAT THE TWO OF

YOU WERE DATING! SO MAYB SHE JUST FORGOT FOR A WHILE! LET

HER FUCKING EXPLAIN!" I continued to scream.Everyone was looking

at me but I didnt care! One of my best friend is hurt! I was standing

up and walking back and forth trying to comfort her."Annabel,Jack is calling putting you three way dont talk."said Kayla.I didnt answer

because I heard Jack's voice. I wanted so much to say,'Hey Jack!Why are you such a JACKASS?!' but I held it in. I placed my hand over my talk place(srry dont kno what tht is calld on the fone!

lol)"Anna-"started Jake but I covered his mouth with my other hand, and shook my head."Kayla, baby you have to listen to me! I was drunk and I didnt kno who I was kissing and I thought it was you!" said

Jack.I was getting madder by the seconds."No Jack1 You broke my heart after I gave it to you!And it was my best friend!How could you!" I was in a mix of sadness and anger. I was mad at Jack and sad at

Kayla who had to go through with it. I removed my hand from Jake and placed it over my mouth so I wouldnt scream.I was bitting my lip so hard I thought it was going to bled!"Please Kayla!I love you so, so

much!Please give me another chance."begged Jack.A tear slipped though my eye and I felt in run down my cheek.It was as if I felt Kayla's pain through the phone.Jake imeditely came over to me and

wipped my tear away."No! I will never make the same mistake I did with you!"I was holding back my scream but then Kayla said,"Annabel!"I uncovered my hand and shouted,"WHAT THE FUCK

YOU JACKASS!HOW COULD YOU FUCKING BREAK MY BEST FRIEND'S HEART! IF I WERE THERE YOU SHOULD BE SCARED TO EVEN CLOSE YOUR EYES AND SLEEP! I SWEAR I AM GOING TO KICK YOUR JOCK ASS

UNTIL YOU BEG ME TO STOP HURTING YOU!!!!!!" I screamed and closed the phone.I was breathing in and out taking deep breaths trying to calm myself..I was screaming so loud that everyone had their

hands' pressed againist their ears."Sorry about that. I'm going to be in the back room. No one follow me, I need to be alone."I said in a normal but soft voice. I walked-no-ran to the room. I locked the door

and called Ashley."H-H-Hel-lo?"said Ashley in a voice that told me she was crying not too long ago."Ashley! What happened1What happened between you and Jack?"I asked in a panicked voice."Jack tried to have

sex with me!"she said on the verge of tears."OH MY GOD!"I screeched,"Did you tell Kayla?"I asked."No, she wouldnt havebelieved me.She would have thought I was trying to havesex with him!" now

she was fully crying and it just broke my heart to hear her cry andnot do anything about it."Hold on.I'm gonna three way."knowing Kayla, she couldnt bare hearing or seeing Ashley crying or being hurt.We

would beat up anyone who did.Unless it was a adult."Kayla!Three way train right now!Ash me u."was all I said to her then I three wayed.We both could hear Ashley crying and that instantly hit Kayla's

nerve."WHO THE FUCK DID THIS TO YOU!?"asked a screaming Kayla."JACK!HE TRIED TO HAVE SEX WITH ME!"said Ashley then she continued to cry,"I THOUGHT HE WAS THE ONE FOR ME!BUT I

THOUGHT WRONG!"she continued."I AM GOING TO FUCKING KILL THAT BASTARD!"screeched Kayla and she hung up.Probably going over to his house to throw things at him."Ashley its going to be okay."I

tred to calm her down but all she said was,"How can it be okay when my best friend isnt here the boy I thought I loved I dont and-and-"she cut herself off by crying ang hung up the phone on me.I just realized

that the plane was dead silient.I was sitting againist the door just staring at my phone not waiting for anything in particular.I jumped when someone knocked,"Annabel?Can I come in?"asked

Jessica."Sure"I said but it wasnt very strong. I moved out of my way and cleared my throat.I sat on the bed and Jessica sat next to me after she locked the door."What happened?"she asked. I slighty

laughed and said,"I thought you could her my best friends' screams, guess not."I shook my head and looked down at my hands.She laughed softly and said,"Yes I could but I still dont understand."I

sighed before telling her,"My best friend's boyfriend cheated on her with her best friend, who is crying because he tried to take advantage of her because he found out that she liked him.Now Kayla, the

girlfriend who I'm pretty sure is theexgirlfriiend now is throwing things at Jack,the boy who started this, for breaking her's and her best friend's heart." when I was done I looked at Jessica's face."Is your

school always have so much drama?"she asked."Sometimes, not always at least once a month."I said,"Look can we not talk about this?"she looked at me and said,"Sure."I smiled,"Thanks."

~~*~*~*Kayla*~*~*~*~*~*~*

I drove off to Jacks house and rang the doorbell. His mom was at work and his dad is out of town making him and his two brothers at home. I didnt see Kellan's car so he wasnt home. His other brother who I rarely

saw opened the door."Hey. Can I talk to Jack?"I asked in the sweetest voice I could mange."Sure."he opened the door all the way up and I ran up to Jack's room. Thats when I heard moaning.Oh Come On! We

just broke up and hes already screwing a girl! What am I?! Chop liver?! I opened the door and the lights were turned off so turned it on. Oh thats not the worst part of it. They werent even in the bed! Instead

they were on the floor but on the other side of the bed so they could be seen.I saw Jack's baseball bat and gripped it."Jack."I said in the most venom voice I could ever do.His head popped up and up came

Olivia. My twin sister that was supposed to be in boarding school."Kayla?"said Jack as he looked back and forth between us."Yes."we both answered and I glared at her."Olivia get out now if

you know what is good for you."I said venom dripping in my voice.Olivia got the bedsheets and ran towards the corner. Jack was looking everywhere for his boxers which was right by my foot.I threw

it at him and watched him put it on. Thats when I went for him. I whacked the bat between his legs then started hitting his sides."HOW COULD YOU! YOU MOTHR F**KR!!!!!! WITH MY DAM SISTER!! AND

ASHLEY!!!!!! WHAT THE HELL IS WRONG WITH YOU!"I screamed at him still beating him up with the baseball bat.Then I started kicking him all over the place. It felt good to get all my anger out. I saw Jack's

brother standing by the door just watching me."Your not going to do anything?"I asked him."Why should I? I mean he cheated on you with your sister he deserves it."then he walked out. I smiled Trevor was

the awesomest guy ever.I was still beating Jack up after 10 minutes. Then I threw a lamp at him and left. I hugged Trevor before I left and said thanks to him for letting me beat his little brother up. I was smiling

all the way till I reached Ashley's house.. I was over him. He couldnt use me any more. I will not be anyone's playtoy ever again.I walked into Ashley's backyard and hugged her close to me."It's alright Ash.

I'm here."I said and hugged her closer. She was sitting under a big oak tree with a blanket underneath."Ash. I have something to cheer you up."I said and took my phone out. I went to my pics and showed her

what I did to Jack. She looked up and couldnt help herself. She laughed. She actually laughed today and it felt good to hear my best friend's laugh.It was a picture of Jack with smeared pick lipstick and

purple eyeshadow and mascara.I was laughing with her now."Send it to EVERYONE."said Ashley after she was done laughing."Already did."I said and we both smiled evily.

~~*~*~*Annabel*~*~*~*~*~*~*~*

I was talking to Jessica when my phone made the sound that meant I had a text. I opened it up and it was from Kayla.I opened it and cracked up laughing. I was literally rolling on the floor laughing my ass

off."What?!"said Jessica and I gave her my phone. The second she saw it she joined me. Itr was the most hilarious photo of Jack I ever saw!!!! I was breathing heavily now trying not to laugh again.I got out

of the page so I would control myself but still laughed once in a while.Finally we got to Washington and let me tell ya. It is freezing here!"Wow! How can you stand the cold?"I asked them."We're used to

it."said Jessica."Well I am not used to being cold since I lived in Georgia my whole life."I said rubbing my arms.We got into a limo and sadly Taylor and Hallie had to ride with us."Why did they have to send

the small one?!"complained Taylor.I rolled my eyes and waited for Jake. It took him a while but soon we were off to his house.

Not your Average Arranged Marriage Part 7

~~*~*~*Annabel*~*~*~*~*~*~*

We reached a house that was huge! There were so many rooms it would be like ultimate hide-n-go seek!!! The house was a white house with white halls and white carpets and white everything! There needs

to be color in here!"We were told that you loved to paint, sketch, e ct."said Jake as he lead me into a plain white room with tiled flooring."Yea."I said looking around."This is the art room. You can find

clay over there,"Jake pointed towards a room,"And the oven is in there too.Theres paint in that room."and pointed to a room besides it."The next to that is the paper and the one next to that is a 5 year

supply of pencils."said Jake."Now we have to go to bed soon because I go to school tomorrow.This room is right across from ours so you have no problem finding it."then he walked out and I followed him.He

just jumped into bed and I signed. I had no choice and I was too tired to argue. I fell asleep next to Jake and the last thing I remembered before falling deep asleep was Jake's arms wrapping around my waist.

I woke up to someone shaking me."Wha...?"I said feeling tried."We have to get up sweetheart."I heard Jake's voice."Why?"I mumbled resting my head back on the warm comfy pillow."Come on! We have

school!"said Jake shaking at me viciously."Alright."I said. and sat up rubbing my eyes. I got dressed and brush my hair. The sleep was gone from me as I waited for Jake. He was done and gave me a black

messenger bag with a few things in it.Pens/pencils, 1 notebook, a calculator, and an eraser."We only have 3 weeks of school left."said Jake taking my hand and walking out the front door.He took me to his garage and in it there was multiple cars. He walked over to a Subaru

Impreza blue."Nice."I said then we took off for school. It was a 10 minute drive and Jake was going fast."Will you slow down before we get into a car crash."I said to him glaring at him."Cant or else I wont

make it to school."said Jake."I'm sure we will make it in plenty of time."I muttered.He pulled into the school's parking lot and stepped out. I sighed. I really thought I didnt have to go to a high school

angain but I was wrong. I let my mind wander to my college. I got accepted into Vassar and was planning on going there. But it seems as I will never get to go to the college of my dreams.I walked into the

office and asked for my timetable. The secretary gave it to me with a smile than directed me to my first

class.I had Biology first period and found it quickly. Just as the bell had rung too. I walked up to the

teacher's desk and he told me to wait. He stood up and introduced himself as Mr.Kindley and told me to say something about myself to the class.I looked at the classroom and said,"My name is Annabel

Harpmen. And at my last school I already graduated but I had to go to school again. I am a straight A student and you shouldnt get on my bad side."I said simply and Mr.Kindley gave me a seat next to a boy

named Aaron. He was a quite guy. Mr.Kindley didnt teach me anything I already knew so I kinda zoned out. He called on me a few times and I got the answer right everytime. When I heard the bell I collected my

things and walked out. My next class was gym. I walked in and the coach said that I could wear what I was wearing but next week I will be wearing the gym outfits. She told everyone to sit on the bleachers

and class begun."Now, we will be doing tumbling until the end of school."I heard groans,"Hey now. This will be fun! Now who can show me a

cartwheel?" A few girls stood up but I didnt. They got it right and

smiled big when the teacher praised them."How 'bout a round off?"The girls shook their heads no."Anyone else?"she looked at the students and no one moved. I stood up and walked forward."Whats your name

again?"asked the coach."Annabel Harpmen."I said."Do you know how?"she asked."Of course I know how."I told her. I stood at the end of the mat and did a round off perfectly."Can you do a back

bend?"she asked. I did a back bend then then walkover."Wow, your good."said the coach, I just shrugged."Back at my old school we did alot of tumbling."I told her."What else can you do?"she asked.I didnt

tell her but showed her. I did a backhand spring, then a tripod. I did others and she was impressed."Your really good."she said and smiled at me."Thanks, but my friends are better than me back home."I told

her and the day went by. When I was back at my new house I walked to the art room. I brought out a canvas and all the colors of the rainbow with 10 plates. I started to paint a meadow in the spring.

When I was done I smiled. It was one of my best painting yet.

**Hey! I dont kno much bout tumbling but I did do it at school!!!! LOL hope u liked it!! And I was away from the computer so I am srry for posting it late!! Butttt Yea! ENJOY!!

Not Your Average Arranged Marriage Part 8

As I promised heres Not Your Average Arranged Marriage!! PART 8!!

~~*~*~*~*Annabel*~*~*~*~*~*~*~*

I heard someone gasped behind me. I turned around and it was Jake-Justin-whoevr! I smiled."Hey, close your mouth before flies fly in."I said and started to clean up."You're really good."he said and

walked over to my painting."Thanks, but don't touch it cuz it's still wet."I said and washed the brushes.

When I was done which was 3 minutes later Jake was still looking at it."Do, you know where I can get

frames?"I asked him.He blinked several times before answering me nd turning away from the painting."They're in that room over there and dinner is ready, that's why I came here."he said and sat down on a

couch. I nodded my head and got a frame. I placed my painting in and grabbed Jakes hand and walked out."Umm..which way again?"I asked him as we turned down a hall.He chuckled and I smacked his

arm."Ow!"he said and started to rub his ram. He led me down the different halls and we finally reached the dinning room.It was empty...?"Where is everyone?"I asked sitting down where two plates

were set up at."Busy so it's just the two of us and the staff."he said and took a seat. I rolled my eyes at the word staff. Are rich people that lazy that they cant even cook for themselves?! Someone brought

in steak, and poured two glasses of wine."Sorry, but I don't drink."I said and took out a water bottle from

my bag I still had around my waist. I took a long sip before putting it back and starting my steak.I

felt eyes on me so I looked up.The two were staring at me."Is there a problem?"I asked looking at them both."N-no!"said the guy."Then look away."I said and continued eating. I heard his footsteps walk away

and the clack of silverware against the china plates.When I was done with my steak I looked up to see Jake's half eaten one and him just sipping wine."Under aged drinking? Why am I not surprised."I said and

took a gulp of water.Just then thesame guy came and served us salad. I was full so I declined and told him I was full. I had to wait for Jake to finaih because I still didnt know where to go to. I have the

most terrible sense of direction.I started to run my hand through my tangled hair. I waited for a long time and finally in rolled inmy favorite dessert.I smiled, Chocolate cake."I heard this was your favorite?"said

Jake was I stuck my fork through and took a big bite. The cake melted in my mouth and was creamy! I nodded my head and ate another bite. I licked my lips and slowed down. I didn't want to eat all of it yet!!

(xD)"MMmMmMMm"I said after I was finished. Jake smiled. "Come on, I need help with my homework."he said. I rolled my eyes at him."Of course you do."I said and followed him up.I explained him all the

material at least 5 times and he still hasnt got it yet.I sighed finally giving up and doing it myself. I finished my easily at school.Being an over achiever pays off at times.

When Jake was asleep I took out my tiny flashlight, but it's bright as heck, and my Vassar pamphlet. I looked over at the things that couldve happened to me. I wished I couldve married the man I loved not someone who i dont know. Plus I couldve still gone to my college choice."What are you doing?"said Jake sleepily from the

bed."Shhh...it's nothing, go to sleep."I whispered and turned the flashlight off."Okay..."said Jake already asleep again. I climbed in and took a while for me to fall asleep

~~*~*~*Annabel*~*~*~*~*~*~*~*

I woke up to find Jake gone. Where is he? I got up and yawned and stregched. I heard the faint sound of rain outside, guess I couldnt run today. I sighed and walked to my closet. I took a pair of black skinny

jeans(designer) and a white shirt that I managed to hide from Jake that was plain that read "My Boyfriend's a Vampire." written in red! then I wore a black jacket that was mine and my sneakers. I walked down stairs and took an apple before walking outside. I was in mid bite when my eyes widen and the apple dropped from my hand/mouth and I gasped. In front of me was my Aston Martin DBS!!!!! I screamed and ran at it. I looked up at Jake and hugged him."How did you get it here?!"I screamed and let go and ran my hand along my car."Well. I had one of my men drive it behind us. But I told him to keep it out of site."said Jake grinning.I gave him a kiss on the cheek and pulled away, but he wrapped his arm around my waist and pulled me in again. My heart thumpped again and sped up just a little. When we broke apart we were both breathing heavily."Come on, we're gonna be late."I said moving his arm off.He nodded his head and stepped into his car. I got in mine as well. I reversed and sped off to school. I knew the way to it now, just keep going straight make a right, the straight, then a left then a right then your there. I got there before him and

checked my phone. 8:00, school would start in 15 minutes. I opened my door and closed it. I leaned againist my car as I txted Kayla and Ashley. Ashley was now in a better mood thanks to Kayla and Kayla is over Jack for being the jackass he is. I laughed softly, as I read Kayla' txt

Kayla's txt:

Ok, so me and Trevor r goin out now nd Jack did some late drinking and was driving, now he has to stay in jail for 1 week for doing tht. wat an azz, wat the hell did I eva see in him.

My reply:

xD LMAO!! Thts what he gets for being an azz ya kno!

Kayla's reply:

Yepps!!

I looked up at the sound of a honk. It was Jake, he got here 4 minutes after me."What took so long?"I asked him."Well, I forgot to get my keys so I had to get them and plus you sped off before I even closed my door."he said pouting. I rolled my eyes but smiled at

him. Then I remembered something. Today was Ashley's birthday."Hey Jake..how fast can you deliver something if its from here all the way to Georgia?"I asked, he looked at me confused."Well...I'd say...maybe...4 and a half hours by plane?Why?"he asked."Can you send something for me?"I asked him putting on my puppydog face. He shook his head but it seemed like he was about to give in. So I pouted,""Fine! he blurted out before he could help himself.I smiled and grabbed his hand and walked towards the school. I gave him a kiss on the cheek and went to my first period class. I sat down on my usual seat and started to listen to my Ipod.I was listening to Here We Go Again by Demi Lovato when someone tapped me. I turned around and saw a guy, AI took my right earphone out and said,"What?" He said,"So, you're Annabel Harpmen." I rolled my eyes,"No duh." and turned back around and continued to listen.He tapped my shoulder again."What?!"I said a little louder."I was just wondering if you want to hang out sometime." he said."Sorry, no thanks. I'm taken." I said and turned back around ignoring his third tap. Soon I heard the

faint sound of the bell and turned my volume to low and used my hair to cover the earphones to my ear and zipped up my jacket.I heard a faint voice calling my name."Annabel...Annabel."he said. It was probably the guy behind me,so I thought, it wasnt. But instead it was my teacher witch I soon found out by looking up at his...4 or 5th call of my name."What?"I said."Answer the question!"he exclaimed, his face face red and pointing to the board. I read the question in my head then answered him. It was something I had already learned in my Junior year. The day went by and I noticed something I didnt on my first day here. The guy, Ben, had all the classes with me.Even AP biology.Everywhere I went he was there.Finally lunch rolled on and I escaped the lunchroom and slipped into the music room. I saw the black upright piano and played the scale. It was in bad tune and I tuned it. I tested it again and it sounded much better.I paused thinking which song to play. I decided to play an old song. A song my mother played to make me sleep.

(xa=however long you hold it yes its accurate cuz I am singing this song in choir! xD Song is: May you always have a song)

I let the piano ring until it stopped and thats when I heard a soft footstep. My head snapped up at the sound and it was.....Ben? What

was he doing here?"What do you want?"I asked him standing up."Nothing, I just heard a voice-no we heard a voice singing and I got

pushed in here."he said, and it sounded believable, if your stupid. 1)I didnt hear the door open and close 2)he had took careful steps trying

not to be heard 3)if he was pushed I wouldve heard his shoes squeak against the tiled floor 4)if he was pushed I wouldve heard voices.I

looked at him and said,"Do you think I'm a dumb blonde?" I narrowed my eyes and took a step closer,"Do you think me, a graduate student

wouldnt be able to think logically? I mean, soft careful footsteps? Soft closing and opening of the door? what do you take me for an idiot!"Just

as I finished my phone rang. I checked the caller ID before I answered it. It was Jack. Dammit! How the hell did he get my number!! I dont

remember giving it to him! I didnt kno what to do so I just let it rung. I grabbed my bag and walked away. But as I turned Ben was looking at

me with raised eyebrows, and my phone continued to ring. I tried just walk past him but he grabbed my arm and took my phone before I could

do anything.I turned around and pinned him down but not until he answered the call."Hello"he said under me."Can I talk to Annabel?"I

heard him ask faintly. I grabbed the phone and hung up."Say anything and I will hurt you."I said bring his arm behind his back like I do to Jake.I

put pressure on it until he showed pain. Did I care that I was hurting him? No, not really."I suggest you keep your mouth closed,"I let him

go,"and stop following me."then I got up and left. I walked to my next class and finally chemistry rolled on by. I love chemistry it was my

favorite subject. Today was a presentation day and students presented different things. There was a rainbow in a bottle, small

fireworks, fire appearing, and others. I wasn't really amazed by any, all of these I already knew how to do."So Annabel, was there any that

was new to you?"asked the teacher."No."I said monotone."Can you show us something we have not seen today?"I felt everyone's eyes

stare at me. There was something I could teach them considering I was in AP Chemistry, I stood up and put on my goggles and apron,

gloves and walked towards the front of the class. I used a glass rod to keep my bun in place with one hand doing it. A trick I learned from my

mother and did the Bubble experiment(A/N:I dont know if there is am experiment like this but it would be so cool! and the other ones idk

either Im making them up..I think..I dont know they could be real...oh well). The experiment creates bubbles that keep forming and goes up

the flask and when it pops it explodes like fireworks, sometimes fire.I smiled and searched for sulfur(A/N:I seriously am making this up ok?

Dont try this..ever. I dont know if Im using the right stuff here!!) I found one and broke a piece and dropped it in. The bubbles reacted and started to create smoke and red liquid comes sputtering out from

the flask but freezes from hitting anyone. It was from the chemical I added. I smiled at everyone then removed everything in 5 seconds and

walked over to my desk.I took out the glass rod from my hair and shook my head to get it back to it's natural state. I heard alot of applause but

didn't really care. All I did was pick up my bag and walk out right as I walked out the bell rung so technically I wasnt doing anything I wasnt

supposed to. I walked out to my car and drove to Jake's house. I wouldnt really call it 'home' after only living there for 2 days. I locked my

car and ran straight on the side of the road. I keep going until I ran all the way to the school when I saw still cars there and a huge crowd

around something.. Something was wrong. I ran towards where everyone was crowded around pushed a lot of people away. When I

reached where the "main event" was all I saw was Jack and Jake."WHAT THE FUCK!"I screamed and shot my death glare at both of

them. Both Jack and Jake were hurt but I wouldve done more damage. I reached over with one hand and yanked Jake away from Jack."WHY

THE FUCK ARE YOU HURTING MY FIANCE!"I screamed at him when I had him pinned down on the ground.I heard a lot of whispers like:

"Whoa-she's strong"and"Damn that girl is a beast!""Their fiances? Since when?"I pressed his face against the ground and asked him again."All I

said was, I'm Jack do you know where Belle was."when I heard Belle I put more pressure on his arm."DONT YOU EVER CALL ME THAT AGAIN!

AND HOW DID YOU END UP HERE! YOU'RE SUPPOSED TO BE IN JAIL!"I screamed at him and twisted his arm again."Bella-"he started but I put

more pressure on his arm"-Annabell-please just here me out! Im here because the police sent me here as my punishment! I knew you were

here and I just wanted to say that's not really Jake!"

~~*~*~*Annabel*~*~*~*~*~*~*

"The fuck you talkin' about!"I screamed at him.I dung my nails into his forearm and he flinched in pain.I

had enough of him and his lies. I pressed two fingers againist his arm in the

crook of his elbow and pressed two other against his pressure point and knocked him out. I stood up and looked at Jake. He was pretty beat up but there was something in his eyes. His

eyes looked nervous and then he closed them."He's right you know."said a voice behind me. I turned around and sure enough, it was Ben.Even though I didn't know Ben very well, I

some what trusted him. I grabbed Jake into a head lock just as an unbeaten up Jake steped behind Ben. I looked back and forth fromt he two Jakes. I kicked one of his back knee and

made him buck forward. I stood on one leg and kept him in a headlock still."Ok, what the hell is goin on here???!!!"I said through gritted teeth. I don't know whats happening...yet, but all

I know is someone is getting hurt today. One Jake or the other."Start explining."I said to them."When we

were at the airport, do you remember me going to the bathroom? Well thats

when someone took me to this...place. The last thing I saw was another me before I passed out on a drug they injected in me. When I woke up I was strapped in somewhere. The

people there told me they didn't want to hurt me...but they did want to hurt you."he paused. I knocked out the Jake I was holding narrowed my eyes and had a thinking

expression even though the second I paused I knew what I was going to do.I let a second

pass before I had Jake in a headlock and my pocket knife out. Yes, I'm always prepared. I knew exactly what he was talking about but, I still don't know who's the REAL

Jake."Annabel! That's Jake! My dad was the one who wanted to hurt you! I didn't agree to it thats why I was always watching you to make sure you were safe!"said Ben looking shocked

that I had a pocket knife."How did HE-"I jerked my head downward showing that I meant this Jake,"get here?" Ben looked at me,"I released him without anyone knowing. We go way

back."He said. I put my knife away and knocked this Jake out. I stood straight up and took out my locket I kept hidden in my shirt. I whispered one word to it."Now."and a blue light erased everyone's memory except Ben's, and the two Jakes. It also froze time for about 3

minutes. Maybe I should explain. The reason why Ben's father and the other people want to hurt me is because of me, and my mother. We are not like everyone else. We are...magical. Something we kept from my father. In truth, Im 110 years old. I age very slowly. I don't

know what I am and neither does my mom. My mom...yes, she did die but I still see her. Are we witches? No, we don't cast spells. Are we wickens? No we can't heal anyone.I think we

are more of...time travelers. We can erase memories, freeze time, and go back in time. We could go in the

future, but I prefer not to. I don't want to know anything that happens in the future. But sometimes I have dreams about the future and I know it is about the future.

They-the people who want me-want to use me for their own purposes.They want to restart the past and make it for them to rule.In that 3 minutes I moved the Jakes, Ben, and Jack into Jake's car and sped off, leaving students clueless for why they are there. When I got

home time was still frozen for them as long as I touched them and I tied all four of them up and different sides of the room. And unfroze time. The Jakes and Jack should be waking up from conciousness now. I believe Ben's story but I still don't know how Jack knows."Okay, I

want answers and I want them now."I said harshly. Sometimes it's hard to maintain my original self. I'm usually nice, but ever since this arranged marriage happened I've become like...her.

~~*~*~*Annabel*~*~*~*~*~*~*

Her.My twin sister, theres something that we Time Traveler's have in common.We only give birth to twins.I haven't seen my in over 50 years. I still look like a 17 year old though I am way passed that.Chloe and

Claire has already started to age slowly and because they have already reached 10 years of age they still look very young..Then they will stay at that look until 100 years of age and then age up to 17 normally

then freeze, then slowly forever."Ben, what does your father want from me?"I asked him, though I knew

the answer."He want to use you."he said calmly. Ben knew what I was capibile of."Jack, how do you know

about this?"I asked him walking around, my arms crossed, and a serious expression on my face."Ben here is my cousin.Uncle J,"I growled at the sound of that name,"sent a fax to the police to send me to him."said

Jack."How long have you known about me?"I chewed on my nails-an old habbit-and waited for his answer."Since I met you, and visited Uncle J."

I bit bit my lip. Oh no. This is gonna be difficult. I moved Jack and ben together but not too close. A meter away and stood right behind them."Ok, which one is the REAL

Jake?"I asked them after I moved the two Jake's next to another but 3 meters apart."The one on the

left."they both said at the same time."How do you know?"I asked them."Jake has a scar right behind his

right ear. Go check if you don't believe me."said Ben.I walked over to the Jake they said and sure enough

there was a scar. I looked at the other Jake and he didn't have one."Why doesn't he have one?"I asked

them."Uncle J, didn't know that Jake had that scar."said Jack. I sat down and looked at each and everyone

of them."Alright,"I began and stood up to knock out the two Jakes again."How much do both of you

know?"I asked getting ear plugs on Jack showing that only Ben could talk."I know everything about you. I

know that you can travel to any time period you want, erase any memory of your choice, and I also know your not like this."he said and stared at me the whole time. I pulled a chair and sat right in front of him. I

exhaled loudly and had my elbows on my knees, my hands holding my face.I am in danger zone right now. I can't erase his memory.I could but...he would forget almost everything. He might even forget his own

name. He knew about me ever since his father knew. 30 years.30 years since professor J knew about me and my mom.I tried to think of a better way. An EASIER way to do this.Should I leave him like this? Should I erase it?What should I do?!

NEED TO READ THIS!!!!!

Yeah I like putting clif hangers ^^ what do you think she'll do??

Okay so when I was rereading my other chps of this story I've realized I changed ALOT of damn things in it. I didn't even foreshadow any of it.(if u dont kno what tht means its: giving clues to whats going to happen) <----CLUE

Chapter 13

Not Your Average Arranged Marriage FILLER

As the title says this is the filler!! Be sure to ask question if you do not understand!

Annabel Harpmen is 310 years old is a time traveler, and so are her sister but they do not know yet, her mom was one but got killed by Ben's father trying to use her power and ended up killing her.

She has indeed never been kissed before, she's never meet a guy(Think of Twilight how Edward never liked/loved any one before)

Jake 17 going on 18 goes to Forks High, got kidnapped my Ben's father and Ben's father created a clone and

a fake Jake was with Annabel ever since it took a while for Jake to come out the bathroom.

Ben is Jake's bestfriend, loves Annabel, has known about Annabel since he was 5 is Jack's cousin.

Jack is the ex-boyfriend of Kayla-Annabel's best friend-

Get it now???

If not ask awayyyyyyyy!!!!!!!! LOL

Chapter 14

Not Your Average Arranged Marriage 13~FINALLY~

RECAP: Annabel was talking to Ben and Ben knew everything about her, and the type of girl she really is.

Chp 13

What the hell was I going to do?! I guess I will have to think about it more. I plugged earplugs in Ben's ears and now it was Jack's turn."Ok, how much do you know about me?"I asked him."That you travel back in time, that's pretty much it."he said, I reached into his mind and found that erasing his memory

wouldn't be difficult at all. Just the part when his uncle J told him about me. I looked deep into his

eyes."You are getting tired,"I said slowly, calmly,"Your eyes are closing slowly. Do you want to go to sleep?"I asked him carefully, calming, controlling voice. His eyes dropped and his head bobbed."You are

dreaming."I said very slowly, and still calmly, getting him to sleep and erasing his memory was the easiest. But maintaining this was rather easy for someone who has done this for 300 years.Soon he was snoring softly, I picked at his head erasing memories of the first time he knew. Right now he probably never even

knew he had an uncle J until now. "Ben, you must swear to god, or whatever your religion is that you will never tell any living soul."he swore,"I cannot erase your memory, you've been knowing this stuff since you were 5 years old. I can't erase memory that far or else you may forget 3/4 memory in your head."

"Oh,"and everything was silent...that is until Jake(real one,)groaned and woke up."Wh-what?"he grumbled, I rolled my eyes. Are their personalities the same? Or is he the jerk that I thought he was when we first

met."What should we do with it."I spoke to Ben."Well, you can kill him."he said,"Or, I can just put him

where the real Jake is supposed to be." "Second choice."I said and released Ben and the fake Jake. "Take him, and go." Ben nodded and left carrying the fake Jake.I lifted Jack and brought him to the car Ben was going to take."Your ride?"I asked him shoving Jack into the back."Well, I have a car here and a car at

school which I can't get to, because you brought us here."I blushed."Okay, bye." I said. Ben pecked my cheek and smiled,"Hurry up and become your old self." that was the last thing he said to me before speeding away. I walked inside, and st5ood in front of Jake."So where does this leave us?"I asked him

untying him."Start over?"he suggested."Sure," I said and helped him up.

LATER

"Favorite color?"

"Black,"

"Emo, blue" I rolled my eyes at the emo comment.

"Black is awesome! Ok, favorite food?"

"Seafood,"

"Seafood, That's another thing we have in common."I stated, we were sitting on the couch just talking.

"Sure, sure."

"What do you know about me?"I said seriously after a while of silence.

"Your favorite color is black, your tough, you took karate when you were a kid-"

"That's not what I meant. And you know it."I looked at him straight in the eyes. I could easily go into his

mind and see my answer, but if my mom wanted me to marry him, well might as well start to trust him.

"My uncle wants you for some reason. Your not normal, and I feel as though theres a reason behind this

arranged marriage. I mean come on! No one has these, these days! It's like we're living in the 1700s!" He

was wrong, we didn't have arranged marriages back then! I was going to counter what he had said, but he

didn't know just how 'special' I was. Arranged marriages only happened to those who were rich and only

wanted more money. I was happy I didn't have to go through that when it was me and my mom living in

the woods back then.

"So other than that, you know nothing about me?"I asked.

"Yeah, should there be more?"he was suspicious now.

"Yeah,-"I was cut off from the doorbell ringing. I opened the door and shock ran through me. No, it

couldn't be! But it was. It was Isabelle(Is-a-bell), my sister who I haven't seen in over 50 years.

"Hello dear sister."

OH MY GOD!!!

HER SISTER!!!!!!

:O

Yea u guys didn't expect tht did ya! ;)

Well there u go short I know but I'll continue on writing with it and the next chp will be posted soon!

Chapter 15

Not Your Average Arranged Marriage 14~FINALLY~

14

"Isabell,"I said coldly. She smiled at me, though it was never a warm welcoming smile, it was her cold evil smile.

"Don't you want to invite me in?"she said. Opening the door wider I let her in. She was wearing her usual dark, gothic wear. Black and deep purple shirt with fishnet sleeves, leaving holes for her fingertips, painted with the special nail polish she created long ago with the appearance of black, but with the slightest movement of her fingers it was deep purple. Wearing her black tu-tu with electric purple ruffles,

with her boots(black), and lips coated with black lipstick, and eyeliner thick as honey coated around her eyes.

"You haven't changed,"I noted.

"And you seemed to not let go of your nice ways. When will you learn dear sister. Being nice will get you no where."

"Who is-"Jake stopped taking in the sight of Isabel."She,"he finished.

"Annabel hasn't told you? I'm her twin,"said Isabel checking him out,"Dear sister where is the other guy you were with? I think you can do better than this...prep."she finished.

"Oh you mean Chris? If I remember correctly he ditched you for me."her nostrils flared with anger, but it soon disappeared as she composed herself again."Of course we broke up, I had no interest with him like you did. He wasn't...my type."I finished.

"I thought you didn't have a type, let alone a boyfriend. Shall I remind you of our future,"she said darkly.

"No need,"I answered her stiffly."I hope you heard what has happened to mother."

She nodded,"Yes, sad, dreadfully sad. And its all caused by one man. You know IT will happen soon." I nodded, I knew too well what will happen. A war. A war between Hunters and the four of us. We have to get Chole and Claire so we can explain and train them.

"Does lover boy here know?"she said cocking her head to the side.

"No, theres no reason."I replied. Isabel stepped forward raising her hand, lightly raking her long nails across his face studying him. Suddenly she kissed him and I just stood there letting her. It was one of her gifts. She's a woman of reason, pulling away her eyes distant and I knew she got something. Jake wipped the kiss off with the back of his hand with a disgusted look over his face.

"He's special,"she concluded."theres a reason why mother choosed him."she said and peered towards me. "He's... "

"He's what? Isabell tell me."I said.

"He's got a weird vibe and feel about him. I don't know. Nothing like this in my life.Bite him."she said. Isabell connects to people by kissing them, while I connect myself by biting them. Weird, I know.

"Bite?!"exclaimed Jake.

"Do it sister. You will feel how special he is."Isabell urged

I nodded, understanding. Again, she is a woman of reason. I took him by his arm and pulled him towards me.

"What are you-" I bit his neck and connected myself into him. She was right. Theres was something special about him. Something powerful, something...incredible.

Chapter 16

Not Your Average Arranged Marriage 15~FINALLY~

15.

Jake tried to push me away, but I stayed, I was searching in his mind, looking for something. Anything. You see my power is better and more powerful than Isabell's. I haven't done this is a long time because I never liked doing this. I saw everything, secrets, past, memories, everything. I finally pulled away from his neck, leaving him with a killer hickey. Oops!

"W-what ARE you!" he said backing away.

"We are your worst nightmare." said Isabell hauntingly, but in a joking matter, though it was true.

"You fucking BIT me!"he said pointing at me, I looked away. "And you fucking KISSED me!"he said jerking a finger at Isabell, who took it like the brave, fearless girl she is.

"We have our reasons."she hissed, taking a step forward.

"Get AWAY from me you MONSTERS."he yelled, but that didn't stop Isabell. Nothing could stop her. In a flash she held him against the wall grasping his neck.

"Isabell,"I said warningly.

"We have to erase his memory."she spoke calmly.

"It is the best solution."I agreed, but I couldn't shake the feel of his power. What is he exactly? How could he posses more powers then me and Isabell? Isabell looked deep in his eyes and spoke calmly.

"I am going to listen to everything you say." she spoke. "Repeat it."

"I am going to listen to everything you say," repeated Jake.

"Good, now what is my name?"

"Isabell."

"No, I never told you my name."

"You never told me your name."said Jake his eyes distant, looking into Isabell's with a dazed look.

"Now. What is my name."Isabell repeated.

"I don't know."he replied.

"Good. You have never seen me before."

"I have never seen you before."

"Isabell, hurry up! Just wipe out his memory and be done with it!"I said impatiently. Not breaking her gaze she answered.

"We must make sure. Now Jake, do you recognize me?"she said blinking her eyes.

"No."

"Good. Now sleep." Isabell commanded. And Jake collapsed. "Ok. Get your lover boy off me." I rolled my eyes and held him.

"Where are you going now Isabell?"I asked.

"Oh I don't know. Maybe back to Marry's." she replied.

"Marry? So Brandon and them are still in this area?"I asked. Brandon was my first love. Though I would never admit it.They are also like us.

"Yeah, they just moved back. I was staying with Amber and Ashley before, but they wanted to headed off to China."

"Why don't you stay here sis? I mean take an extra room, come down during the night, eat, go back up. Or just freeze time if you want."I offered.

"Sure. I mean this IS a mansion. By the way, I'm in your school now."she said before swiftly walking up the stairs.

"YOU ENROLLED IN FORKS HIGH?!" I screeched. "You KNEW I'd ask this!"

"You're just too predictable Annabel."she waved. I gave her a low growl, and followed her up. I tossed Jake on the bed and told Madison, the maid, to give Isabell a room. What the hell is up with Forks?! Are magical enchanted things supposed to happen in this

town no one knew until Twilight made it so damn famous! I walked into the room, and got some clothes and took a quick 5 minute shower. When I got back out, drying my hair with a fluffy white towel, Jake was awake.

"Hey, how did I get here?"he asked confused.

"You fell asleep so I had to carry you up here. Did you know that you are LIGHT for a rich kid? Aren't rich kids supposed to be like heavy cause they eat so much?"I joked.

"Haha."he rolled his eyes. "What time is it?"

"I don't know! Go get a clock!"I said.

"Nah, phones are better."he replied smirking.

"Uh huh. It's 7 right now, sooooo dinner time!"I said walking happily down the stairs. I NEED FOOD!!!! We ate in silence, and I got an extra plate when Jake wasn't look. I excused myself to the bathroom, and went up to Isabell's room. "Knock, Knock, Knicadey Knock!"I said using our old way of knocking. I opened the door, and gave Isabell her food.

"Thanks sis. You know you marry that prep could do us some good."she said chowing down.

"I don't see you getting married!"I snorted.

"Uh huh. Go back to you prep. Who knows, he may be one of us."she said.

"I highly doubt that. He doesn't have the eyes."I said. We travelers have black eyes, with purple specks, and gold. You can only see them if your one of us. No human knows.

"Mhmm,"was my reply.

"Try not to stay up all night and turn vampire on me,"I said and closed the door, hear her low chuckle. I ran down the stairs and sat down at the table.

"Where were you?"asked Jake sipping his wine. Hmm..so real Jake underage drinks also. Why is this not surprising for me still?

"Got lost." I replied as dessert came. Sadly it was not my favorite but it was vanilla ice cream in a fancy glass cup. We finished and headed up. Real Jake didn't need help, so I just checked over my school

work. Going back to school really sucked. I mean yeah, I've been through it for the past 290 years of my life, but things change and I actually sometimes learn something new. I laid in the bed with Jake's laptop talking on AIM group chat with Kayla and Ashley.

KaylaBear17: Soooo me and Trevor are like a total couple! He is soo sweet!

I signed off laughing. Oh how I missed their goodnight. That's what we always say, when we text, AIM, facebook, or call each other. "Are you done yet?"I asked him yawning.

"Yeah."he said turning off the light and crawling into the bed. He gave me a kiss on my lips and I melted into him. It felt good to kiss him, he was an awesome kisser! I broke away and snuggled closer to him. "Goodnight."he whispered.

"Goodnight."I barely whispered before falling into blackness.

Chapter 17

Not Your Average Arranged Marriage 16~FINALLY~

16.

The next day, I woke up at 5 a.m. I walked quietly to brush my teeth and walked out. I was still in my black tank-top and black shorts. I saw Isabell walking quietly out her room. We walked down the stairs quietly, and silently got on our running shoes and left the house. Isabell looked at me and gave me a wicked smile,"Ready sister." I smiled back and looked forward, getting in a crouch. And like that we took off running, the few slaps of our shoes against the road was all we heard. Our breaths silent, our black hair flowing behind us. We stopped running and turned back.

"You know you're going to leave him some day." said Isabell.

"I know. But theres something special about him. We just don't know what." I replied.

"Mom would..."Isabell drifted. We were getting closer to the house when a familiar sleek black Mercedes zoomed past us. "Was that..."

"Brandon," I breathed. We started to run full speed, in a flash we were there. "Brandon!" I said loudly and ran straight towards him.

"Annabell," he breathed hugging me tight. "I've missed you," he said still hugging me close.

"I've missed you too! But how did you know here?" I asked him pulling away.

"Small town, word travels theres a badass new girl. Have you been causing trouble again." he said playfully.

"Mayyyybee," I said drawing out the word. Brandon gathered me in another hug.

"I really missed you Annabell."Brandon whispered in my ear.

"Annabell!" we pulled away.

"Marry!" I said hugging her.

"Girl I missed youu!"she said as we pulled away.

"Same!"

"What the hell is going on?" I turned around and saw Jake. "Who are they Annabell?" Jake was shirtless, did all rich guys have abs? He had a 4 pack but if he worked out a tad bit more I could see him getting a 6.

"This is Marry, and her brother Brandon." I said.

"Who's she?"

"Isabell, she's my twin sister. She was living with them for a while and I told them to come. Sorry forgot to tell you."I lied smoothly.

"Are they friends of yours or Isabell?" Jake asked.

"Wait, who are you?"asked Brandon looking at me then Jake.

"My name is Jake, Annabell's fiance."

"Mom planned this." I told them and they gasped.

"She wouldn't!" Marry said desperately.

"She did,"

"No! Annabell she wouldn't! He's...he's...human," she whispered the last word, so quietly only we could hear.

"I know." I whispered back.

"This can't be true!"roared Brandon.

"Annabell, leave Jake you have to come back with us." Isabell tried reasoning.

"I-I can't," I stammered.

"Why not?"

"I can't just leave, Mom signed a) a contract, b) she arranged this, and c) what would my 'dad' think?" I said.

"Annabell isn't going anywhere," said Jake.

"Oh shut up!" said Brandon," Come on Annabell. Come back with us. Come back with me."

Who will she pick?

Them or Jake?

Sorry its been a long time but I've posted!

:)

Chapter 18

Not Your Average Arranged Marriage 17~FINALLY~

17.

I looked between Jake and Brandon. Should I stay? Should I go? I missed Brandon so much, but how can I leave Jake? That stupid idiotic man that just came back yesterday. "I'm sorry,"I said walking down towards the others. I looked over my should taking a final glance at him. "This is where I belong. No on can change that."

"But-"

I shook my head causing him to stop short. Isabell and Mary were already in the car and Brandon and I climbed in.

"Go ahead and leave Annabell, leave me. I'll tell my mom to stop the arrange marriage because we both don't want to."said Jake. I didn't turn to look at him, I just sat there.

"Let's go,"I said and Brandon started the engine and we were out of there.

"Glad to have you back Annabell,"said Brandon flashing me his winning smile.

"Well,"I said smiling back,"It's good to be back."

"I am so glad to be out of that hell-hole! I almost went to school," said Isabell.

"Ohh the horror,"I said laughing.

"Oh blah blah blah,"she replied actually cracking a smile.

We caught up during the whole ride to Alaska. Mary now has a boyfriend! That's like us!

"Holy crap!"I exclaimed.

"What?"said Mary getting out of the car.

"I forgot my clothes."I said blushing in embarrassment.

"Clothes? Those were horrible! When was the last time you went shopping? You hardly had any black in there,"said Isabell.

"Not everyone dresses like a emo princess."I said shooting a glare at her.

"Oh you wanna go sis!"

"Bring drag queen."

"Why did we bring both sisters again?"asked Brandon standing beside her sister.

"Oh no you didn't just call me that!"

"I have no idea. Were we high?"replied Mary.

"Oh yes I did, now stop acting all biker chick."I snapped.

"I can act how ever the hell I want!"she shouted at me.

"No you can't!"

"Yes I can!"

"Maybe we should leave?"

"Bring it."I said my face inches from hers.

"With pleasure."she said and swung a punch at me. I blocked and kneed her in the stomach.

"I see you finally caught up. Little Annabell."she said smiling devilishly.

"I've always thought it were YOU, that needed to catch up to ME."I said and twisted her arm flipping her on her back.

"How wrong you are,"she said and pulled my hand flipping me on my back next to her. We both got up and went at it for 30 more minutes. In the end we collapsed in the grass laughing our asses off.

"Okay, how the hell did we end up like this?"I laughed.

"I have no clue! But man that was fun!"said Isabell laughing.

"Izzy, your make-up is smearing."I said.

"So what?!"

"I see the sisters has stopped fighting,"said Christina standing over us.

"Christina!"I said smiling.

"Annabell,"she smiled.

"What, no hello for me,"said Isabell getting up.

"Izzy, if I said hi you would've been like 'WHAT!' at me,"Christina was from New York (so imagine a New Yorkie accent.)

"Okay, that's true."said Izzy walking towards the house. "I'm taking a shower!"

"I probably should too."I said getting up, into a sitting position.

"Is it hard?"asked Christina sitting next to me.

"That depends on what you're asking."I said looking at her.

"Seeing Brandon." she she looking at me as I looked away. "Annabell. It's been a decade. You've been away from us for over ten years."

"It is hard,"I said softly. "We look the same, because we don't want to change our age. We could make ourselves look 20 if we wanted to. That's how we manipulate others. Planting false information. That's how I lied to my 'dad' my whole life. I even lied to my sisters saying that our mom died because she was having them." I sighed and looked at Christina. "I left because Brandon had a girlfriend-"

"They broke up,"she said quickly.

"-and the pain of seeing him. With her. Was hard. Oh it was hard."I continued softly.

"Oh Annabell,"Christina said wrapping her arms around me. I let some tears fall out of my eyes, before wiping them away.

"You said they broke up. How?"

"He was done with her."

"It's true,"said a deep and very familiar voice. Looking up I let shock take over my face.

"Brandon."

Chapter 19

Not Your Average Arranged Marriage 18~FINALLY!~

"I'll leave you two it." Christina said. "I'll go over plans and after this Annabell come find me."

"Don't go." I said low and fast.

"Girl, what are you talking about. I'm in a pair of white shorts sitting on grass. If I get a grass stain it will be on you. I'm going to go now." Christina stood up and walking past Brandon. She said something quick and demanding, I couldn't catch what though.Christina left and it was only me and Brandon. Brandon began to sit down,I stood up quickly.

"I should go." I said slowly.

"Don't," he said grabbing my hand, looking up at me.

"Alright." I said and sank into the grass.

"Now what?"asked Brandon.

"What?"I looked at him.

"Yes, what now?"

"I don't know what."

"Annabell,"

"Brandon," I copied. I looked at him, he looked at me, waiting. What is going to happen now? I thought. WHere will this lead? I mean come on, I was going to marry Jake, and here I am, in front of my ex-crush. Well...he can't really be an ex if I still have feelings for him.

I opened my mouth to say something, anything, to get out of this awkward situation. Before I did though, Brandon leaned in , and kissed me. His lips were soft, tasted like cinnamon gum, I leaned into me, and angled my head to kiss him better. After we broke apart, my breathing was heavy.

"I've missed you."Brandon said.

"So have I, you can't imagine."

"I think I can." he said, our noses were touching, and our eyes were locked on each others. I smiled at him, and he smiled back. His left hand was over my right hand. This felt so natural, and I can't believe all the stuff happened to me earlier. It feels as if I never left this place.

Snap! I saw a flash and heard a shutter 'click'. Mary.

"Mary!" I turned my head to the right and saw her, hanging like a monkey with her camera.

"Weird Monkey hybrid," Brandon said chuckling.

"You two were cute just now! Does this mean you two are officially together together???"

"I don't know, "I said looking at Brandon."Does it?"

"Nope, we are not together together."Brandon said winking at me. "Annabell here needs time Mary. I don't need to get down in her face about her life. I mean come on. She was getting married to a human soon. An ARRANGED marriage! I think time is what

she needs." Brandon smiled at me. "So, what's for dinner tonight?"

"What do we usually have?"

"Grilled salmon?"

"It's SAM-MIN, not SAL-MIN."

"But there is a L and an O so shouldn't it be SAL-MON? Instead of SAL-MIN?" Brandon looked confused.

"It's SAM because the L is silent and it's pronounced MIN because the O would make it sound weird. Think about it. SAM-MON. I sound JA-MAKE-CON." Mary said rolling her eyes. I gave a short burst of laughing air.

"Oh have I missed you two and your weird fights." I stood up slowly and went inside the house, feeling all warm and such. Breathing in the familiar scent of cinnamon and peaches. I walked into the kitchen to find Christina.

"Christina! You wanted to see-"

"Annabell!" two voiced screamed and jumped at me. I saw two flashes on black hair and two different colored but matching shirts. Chloe and Claire.

~*~*~*~

"What exactly are you two doing here?"I asked.

"Well this chick came home and she looked exactly like you. So we let her in." started Chloe.

"Big mistake, she told dad that we better come with her because it's time." finished Claire.

"And then she told us to pack everything along with our emergency money and mom's hair brush. Oh! And passports to." continued Chloe.

"Mhmm, we were put on the first fight to Colorado, then the flight to Seatle, then to Alaska. Where this place is."

"Then this chick right here brought us here. We kinda just woke up not too long ago."

"Okay, one, that girl who looks like me is my twin sister named Isabel. You have never met because she has been living with mine and her cousin Ashley and

Amber." I said. "This chick is Christina, her twin sister is outside her name is Mary. Brandon the dude who will be in here soon his brother died when they were ten."

"Annabel, what exactly is going on here?" asked Claire.

"Christina. What exactly did you tell them?" I watched as she grilled three salmon at a time.

"They are here for a reason and that you would meet them here."

"You guys knew I'd be here?! You all knew I'd decide to come here? To leave that human!"

"Human? What are you talking about Annabell? You kind of freaking us out." Chloe said looking at me. But I couldn't even look at her or Claire.

"Think about the percentage of you coming here Annabell. This is a war era! It's obvious that you would come back. It's because we know you. We know you won't let us down-"

"Then what about Brandon? What about Mary? What about Isabel?! Huh Christina? Is all of this just to make me stay?"

"His feelings about you are dead serious Annabel. I can't believe you would question it. Mary is Mary, bubbly and happy that you are here. Isabel is Isabel oh jolly as ever. We are not forcing you to stay you can go back to that human fiancee of yours, but you choose us."

"Stop it!" Chloe said.

"Yes, I choose you, because you are like family to me. Right now though, I am regretting it because he could have helped us in some way."

"Annabel!" Isabel yelled.

"Isabel, you know how special he is."

"You regret coming here?" Brandon said looking at me. "He's...special..."

"Everyone, chill a little! Right now!" Mary screamed. "Chill."

"What the hell is going on?!" Chloe said.

"Someone explain before my head explodes." chimed Claire.

"Jake is special. Isabel kissed him, I bit him, he has an incredible power. We just don't know what." I said.

"He is someone important. Our mom would never agree to an arranged marriage unless he is a person of interest." Isabel agreed.

"We should kidnap him!" suggested Mary.

"We can't just kidnap someone Mary."

"It was only a suggestion. Chill."Mary said.

"Now why were you too arguing?" asked Isabel.

"She knew I'd leave and come here."

"Annabel..."Mary started. "It's you we are talking about, you would never leave us for some human right?.

"Again with the human thing! When is some one going to explain this to us!" Claire and Chole said together.

"And I thought us being twins was creepy."Isabel whispered.

"Oh for people's sake! What did you two catch on!" Christina exploded. "There is going to be a war, you two are apart of it. So are we and your sisters. Your mom didn't really die-" Oh my God. In an instant I jumped on her covering her mouth.

"Christina, this is where I draw a line."

"Hvae they ever been angery before?" asked Mary, studying my sisters.

"No, only upset."I answered.

"Tell them!" Christina said, moving my hands from her mouth.

"No! Don't!"

"What about our mom?"asked Claire.

"She-"

"Isabel,"I said warningly.

"She didn't really die giving birth to you two, a mad evil scientist experimented on her which resulting into her death."

"Isabel!"

"What?" they both said shock on their face.
